

# Import/Export Company information in Bloomberg

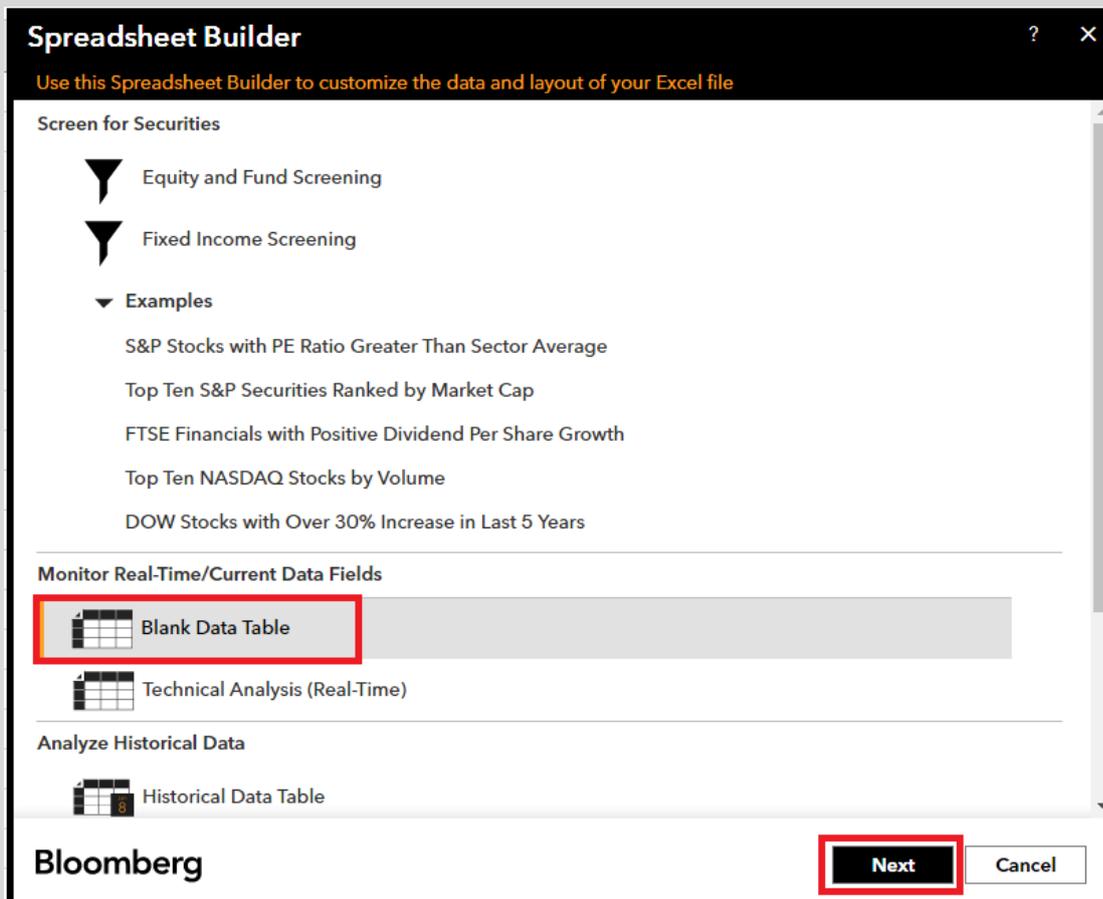

Login to the Bloomberg terminal and open the Excel sheet to export Company Identity Indicator.

Step 1: Click on Bloomberg, then select Spreadsheet Builder

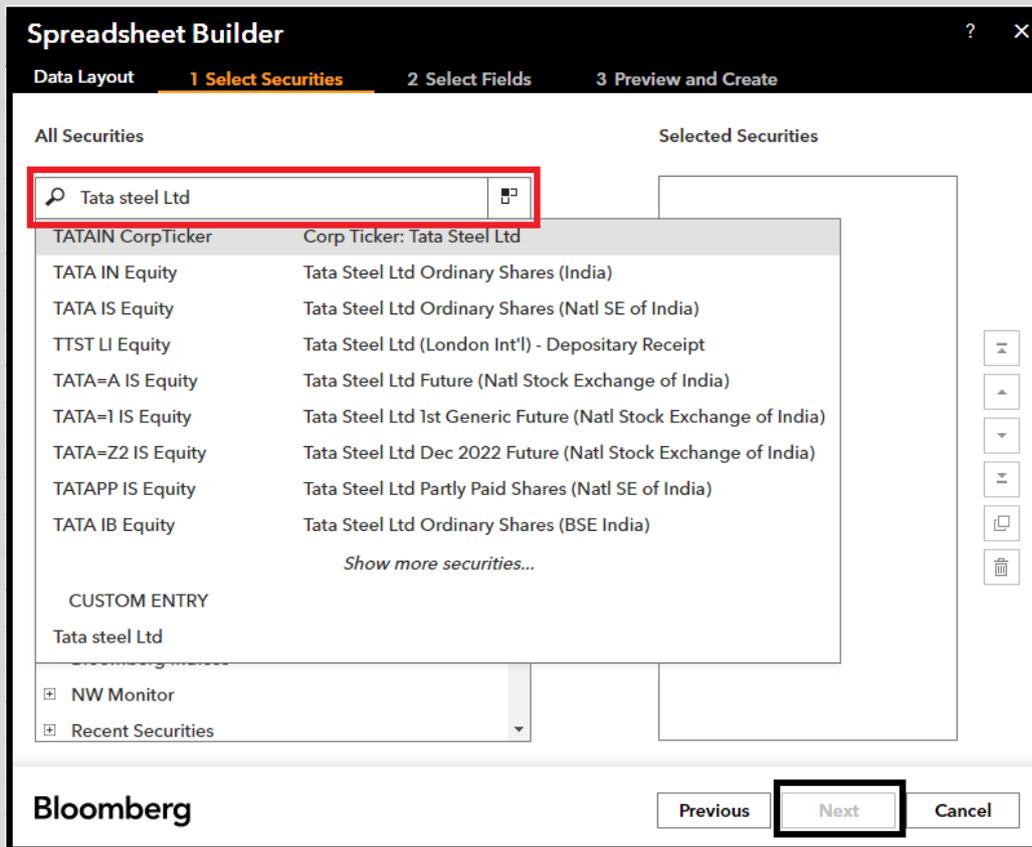

Step 2: Click on Blank Data Table and Click on Next

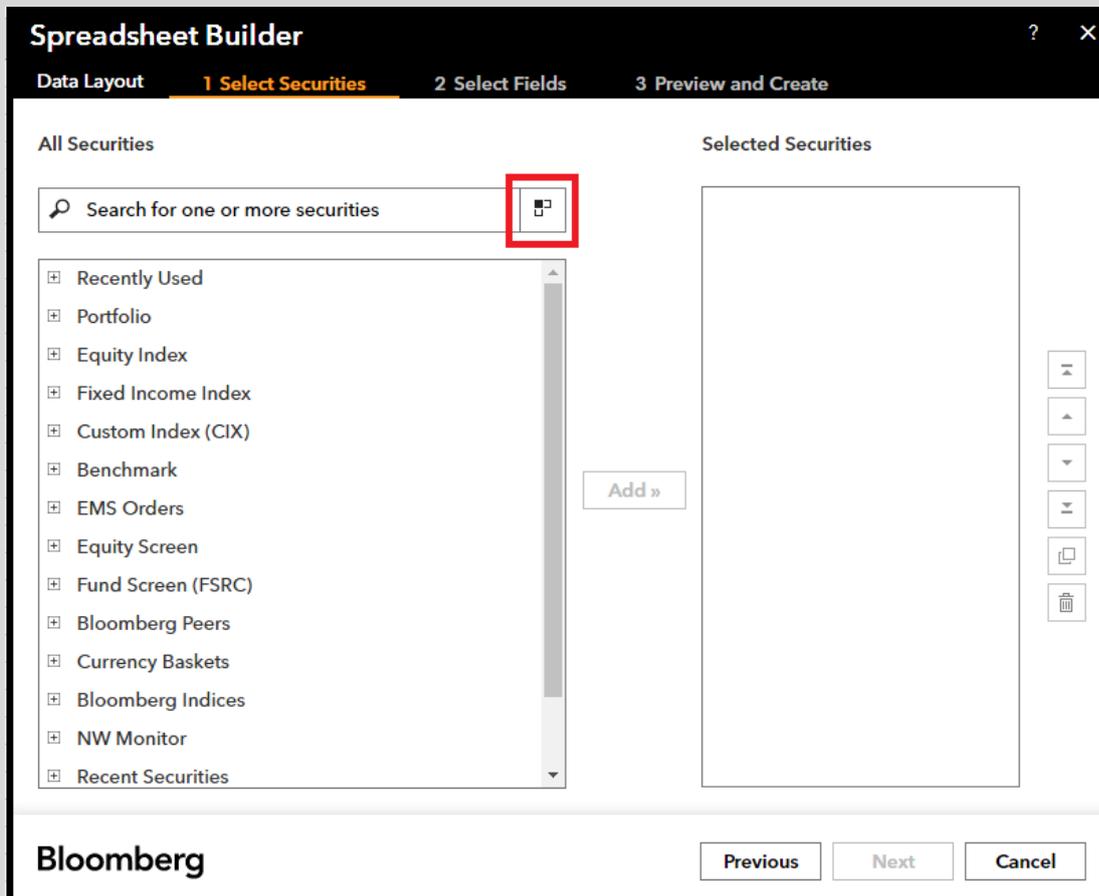

(For Historical data, you need to select Historical Data Table (e.g., Financial, Stock price))

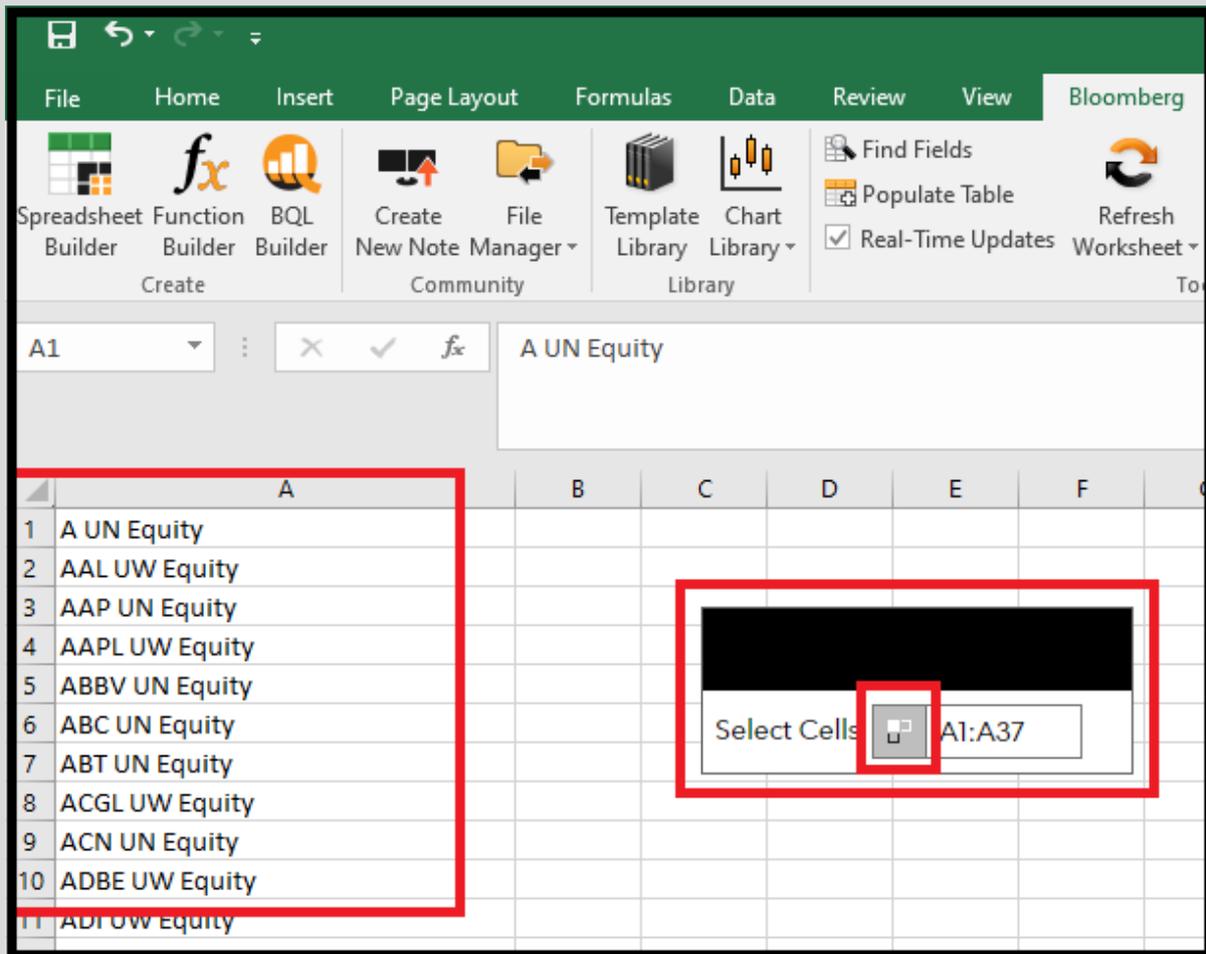

Step 3: Search for the required companies & add companies to Selected Securities, then click on Next

Steps for importing the list of companies.

You can use the below-mentioned formula to convert the company identifier to Bloomberg Ticker (e.g., IBM US Equity).

IBM US Equity	US4592001014	TICKER to ISIN: =BDP("IBM US Equity", "ID_ISIN")
US4592001014	IBM US	ISIN to TICKER: =BDP("US4592001014 ISIN", "TICKER_AND_EXCH_CODE")
254687AH9	US254687AH95	CUSIP to ISIN: =BDP("254687AH9 CUSIP", "ID_ISIN")
US254687AH95	254687AH9	ISIN to CUSIP: =BDP("US254687AH95 ISIN", "ID_CUSIP")
2005973	US4592001014	SEDOL to ISIN: =BDP("2005973 SEDOL", "ID_ISIN")
US4592001014	2005973	ISIN to SEDOL: =BDP("US4592001014 ISIN", "ID_SEDOL1")

Step 4: Select your Identity Indicator under Descriptive >> Identification & add it to Selected Fields

**Spreadsheet Builder**

Data Layout   1 Select Securities   **2 Select Fields**   3 Preview and Create

All Fields

Search for one or more fields

- Identification
- Identifiers
  - Bloomberg
